

Alamo Heroes Cemetery and Spanish Colonial Hacienda Preservation

City of Von Ormy, P.O. Box 10, Von Ormy, TX 78073

□

The Ruiz-Herrera Cemetery was founded in 1840 and contains the graves of two heroes of the Alamo while the hacienda represents one of the earliest examples of private cattle ranching complexes in Texas. The project will provide erosion control, topography survey to mark the lost grave sites, road construction and foundation and roof repairs to preserve the historically significant sites. Amount requested: \$300,000

Amistad National Recreation Area's Joint Operations, Headquarters and Visitors Center Complex

National Park Service, Department of Interior, 1849 C Street, NW, Washington, DC 20240

The Amistad National Recreation Area is a nationally-known bass fishing tournament location and has seen a significant increase in visitors in recent years. This funding would be used to construct a joint operations, headquarters and visitors center complex between the National

Park Service and the U.S. Customs & Border Protection. Currently the operations for Park and Border Patrol are housed in multiple buildings. Amount Requested: \$15,000,000

□

Asherton Wastewater Treatment Plant and Collection System Upgrade and Rehabilitation

City of Asherton, P.O. Box 450, Asherton, TX 78827□

The City of Asherton's wastewater treatment plant, lift stations and collection system are in need of rehabilitation and equipment upgrades. The existing treatment plant consists of 3 lagoons, 4 lift stations and a city-wide collection system. The city, which is a disadvantaged community, needs to make these repairs or it will be forced to close the wastewater treatment over potential contamination and other public health concerns. Amount Requested: \$1,658,125

Big Bend National Park Auditorium

National Park Service, Department of Interior, Intermountain Regional Office, 12795 West Alameda Parkway, Denver, CO 80225

Unlike many other national parks of its size, Big Bend National Park does not have an auditorium to allow more than 350,000 annual visitors the opportunity to enjoy the park from an educational point of view. Funding for this program would allow for the construction of an auditorium adding to the visitor experience and local tourist economy. Amount Requested: \$575,000

Colonia Pueblo Nuevo Sewer Project

City of Presidio, P.O. Box 1899, Presidio, TX 79845

The project will connect 116 households to existing 4-inch service laterals for wastewater collection. It will also decommission existing latrines and septic tanks. This will provide a safe, affordable septic service and provide sanitary services to those in need at the Colonia Pueblo Nuevo, one of the poorest areas in Texas. Amount Requested: \$350,000

Fort Stockton Drinking Water Project

City of Fort Stockton, P.O. Box 1000, Fort Stockton, TX

The City of Fort Stockton needs to upgrade its current drinking water system. This project would drill new wells, and construct waterlines and a booster pump station. This project will also improve water quality and water efficiency in a community that, in order to provide clean drinking water, needs to modernize its drinking water system. Amount Requested: \$6,000,000

□

John Nance Garner Museum

University of Texas, P.O. Box 7397, Austin, TX 78713

This proposal will provide funds for the emergency repair and renovation of the John Nance Garner Museum, Uvalde, Texas. Renovations will address structural issues with the building that will protect the valuable collections and improve the access to this important national historic landmark. Amount Requested: \$939,550

□

Reeves County Colonias Water and Sewer Improvements

Reeves County, 100 E. 4th Street, Pecos, TX 79772

Thirteen percent of the Reeves County population lives in colonias. This project would provide upgrades to the drinking water and sewer connections to a total of six colonias. This project is imperative to provide safe and sanitary water and wastewater conditions for these rural communities. Amount Requested: \$3,083,180

□

□

San Antonio Missions National Historic Park Land Acquisition

National Park Service, Department of Interior, 1849 C Street NW, Washington, DC 20240

Funding would acquire high priority Spanish Colonial lands significantly connected with San Antonio Missions National Historical Park to ensure the protection, preservation and accessibility to the American public. Lands are within the fastest growing area of San Antonio and Bexar County, Texas and are threatened by development. Amount Requested: \$14,580,729

Study Butte Water Supply Corporation Drinking Water Tank Refurbishment

Study Butte Water Supply Corporation, P.O. Box 148, Terlingua, TX 79852

The Study Butte Water Supply Corporation needs to refurbish its two primary drinking water storage tanks. One of the tanks is currently inoperable because of the high levels of rust and the other is deteriorating rapidly. Because many residents in the area do not have access to water through pipelines, they must travel to the water office to obtain drinking water. Amount Requested: \$97,075

□

San Antonio Water Systems, Water and Wastewater Infrastructure Improvements

San Antonio Water Systems, 2800 US Hwy 281 North, San Antonio, TX 78212

Funds will be used to assist in the rehabilitation of water and wastewater infrastructure in various areas of San Antonio, Texas. In many areas of San Antonio, concrete and clay mains are over 40 years old and this funding will help construction projects that address not only age and weather concerns, but also the increased needs of a rapidly-growing city. Amount Requested: \$5,000,000
